

WIN WITH TALBOT ON
ACCIDENT AND HEALTH

Growing with enthusiasm to serve the people we cover
Here's how Talbot's Accident & Health team helps brokers win and retain business:

Growing together

We are ambitious and excited to grow our Accident & Health portfolio. By engaging and listening to our brokers, we seek to apply our expertise and resources to deliver high-quality service and coverage to exceed expectations.

Fast, thoughtful solutions

Talbot's A&H Team can respond quickly and with focus to provide risk solutions for your clients' needs, however complex the request may be. Our Lloyd's licenses allow us to access markets across the globe, meaning we can usually provide risk solutions wherever your clients are located.

Experience & longevity

The A&H team at Talbot – including our A&H claims specialist – has grown together for many years. During that time we have become single-minded in delivering the best products for brokers and insureds. With specialist knowledge and experience, our dedication to our customers is assured now and for the future.

Claims for real people

We underwrite people and treat each claim with the utmost importance.

Our experienced A&H claims specialist is therefore an integral team member, who works with brokers to give clients the responsive service they need, expect, and deserve.

Diligent underwriting

We apply our considered underwriting approach to each risk we are presented with. Sharing our nuanced view of our risk assessment helps our broker partners grow, and facilitates best-possible outcomes for our mutual clients.

AIG Group

Talbot's A&H team is an independent underwriting unit but also part of the AIG Group. This allows us access to greater resource and collaboration within the wider group, which provides another useful tool for us to facilitate risk solutions.

Talbot's Accident & Health growth focus

 **Insurance**

 **Reinsurance**

 **Binding Authorities**

 **Lineslips**

 **QS Treaty (but not whole account Treaty)**
